

A Timeline for Transforming ASTR 310: Exploring the Solar System

Instructors: Brett Gladman and Harvey Richer STLF: Peter Newbury Department of Physics and Astronomy

ASTR 310: Exploring the Solar System is a survey course in astronomy offered to non-Science undergraduates requiring one Science credit. Each Term, 250 – 300 students enrol. Students attend three 1-hour lectures each week and, in smaller groups of 40, participate in a one 50-minute, hands-on tutorial every 2nd week.
